# EASY DIY | CREATE A
# BOOK NOOK

Creating a cool space where your child can just hang out will make reading time so much more fun! You don't have to spend big bucks to do it either. Just find (or create) an empty corner somewhere in the house and let your imagination run wild. We have put some ideas together below to stimulate your creative juices.

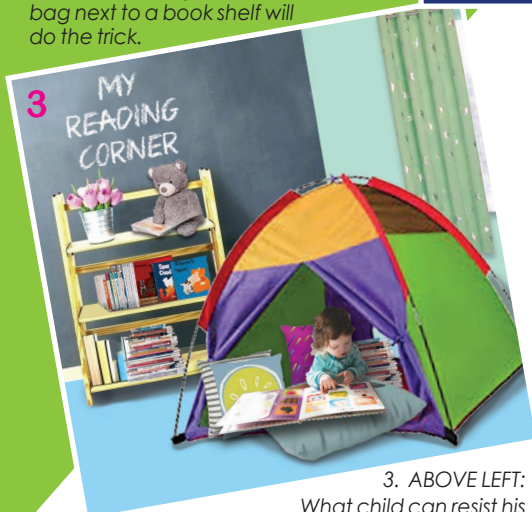

**1. ABOVE:** A large cushion or bean bag next to a book shelf will do the trick.

*2. LEFT: Empty out a cupboard, add extra shelving between existing shelves and re-move the lower shelves to create a cosy hide-out for little readers.*

*4. BELOW: A mozzie net makes an instant tent! Fill it with comfy cushions and put lots of books within easy reach.*

*3. ABOVE LEFT: What child can resist his own little tent pitched in a corner?*
